More choices for a more capable aircraft, nose to tail.

Boeing

Business Jet – 737NG

ENHANCE

Rockwell Collins

Building trust every day
From the spacious comfort of your Boeing Business Jet, you enjoy an extraordinary level of advanced, well-appointed air travel. At Rockwell Collins, we can offer you even more options to fulfill your expectations: in-flight connectivity that keeps you in touch with friends, family or business colleagues; a wide variety of cabin entertainment and information choices; the most advanced flight deck on the market today; and much more. All from one trusted source of innovation in worldwide aviation.
Maximize every moment
Cabin options tailored for your experience

Let us customize new ways for you to make the most of your flight time. Optional services and products bring the familiar conveniences of your preferred lifestyle on board. Work or relax throughout your journey, just as you do at home.

Venue™ cabin management system
Venue offers rich content options for in-flight entertainment, information and productivity, as well as complete wireless and wired control of the cabin environment.

Tailwind® multiregion in-flight TV system
Stay in touch with the world beyond your cabin with more than 300 live satellite high-definition channels. Tailwind 550 features superior signal reception and automatic switching to the correct satellite as you cross regions, so your entertainment experience is seamless.

Airshow® moving maps
Explore Airshow moving maps from your personal iOS and Android™ devices with Airshow Mobile. Custom aircraft, paint schemes, logos, languages and more can make your Airshow experience one of a kind.

Stage™ content service
Never before has your cabin had this breadth of licensed Hollywood and international movies, TV shows, news feeds and games. Stage manages it all with ease— including your personal library of on-board content.

ARINC Direct® cabin connectivity
Choose from a breadth of cabin connectivity options, including Inmarsat Jet ConneX and SwiftBroadband, ViaSat and Iridium to meet your phone, fax, voice and data needs. Combine those with our Airborne Data Router, a multitude of service enhancement applications and our global support to receive an unprecedented cabin experience.

Flight-deck options
Keep your aircraft at peak performance

Ensure that your aircraft will continue to fly with the very best capabilities as airspace modernization advances. Choose from a broad range of avionics that will keep you flying in almost any situation.

With our avionics upgrades, there are no compromises when you need to travel.

FANS 1/A
Take the preferred North Atlantic Tracks across the Atlantic Ocean and participating regions when you equip your BBJ with FANS 1/A capability. Get your clearances faster and be the first off the ground.

Link 2000+
Equip and gain access to all your favorite European destinations with confidence. Current airspace modernization plans are changing how you fly starting in 2020.

MultiScan ThreatTrack™ weather radar
Fly when and where others around you cannot with our latest MultiScan ThreatTrack weather radar. Improve your comfort level when flying, avoid potential rerouting and reduce the downtime of operational repairs by avoiding unseen weather.

HGS™ with EVS
Improve the safety of your flight. This Head-up Guidance System upgrade places critical flight information in the pilot’s forward field of view for extra control and awareness. Coupled with our enhanced vision system technology, you can make a “Go/No Go” decision with confidence.

TCAS II Change 7.1
Don’t limit your operations. Continue to fly worldwide with confidence. Airspace modernization changes worldwide are requiring your aircraft to be equipped with the TCAS II Change 7.1 upgrade.

Secure Server Router
Bring secure, wireless data transmission and connectivity to your flight deck and lower the cost of your operations with our Secure Server Router (SSR).

ADS-B Out
Equip now to keep your access to U.S. airspace. This airspace modernization mandate goes into effect after 11:59 p.m., December 31, 2019.

Iridium
Wherever you travel, when using Iridium you will have access to long-range communications no matter your mission. You will also have more efficient routing through FANS capability.

AVIONICS
Ensure that your aircraft will continue to fly with the very best capabilities as airspace modernization advances. Choose from a broad range of avionics that will keep you flying in almost any situation.

From the moment you decide on a destination, Rockwell Collins is there with the support that helps make any trip a pleasure to take. Our services and tools are designed to smooth every detail of every flight.

**CASPSM**

Corporate Aircraft Service Program (CASP) solutions provide BBJ operators with both CASP and CASP Elite services. These tailored solutions improve the operational availability of your aircraft at a predictable annual cost. With no pre-inspection or buy-in fees, the average customer saves 15 to 25 percent in maintenance costs.

**Contract maintenance agreement**

Count on our quality repair and consistent, predictable maintenance costs for your BBJ, along with reduced administrative processing and a guaranteed turnaround time.

**ARINCDirect International trip support**

The tools you need to take the worry out of worldwide travel planning. Weather, fuel services, visa and passport confirmation, TSA waivers, APIS submission, aircraft and passenger security and much more.

**ARINCDirect Flight Operations System (FOS®)**

FOS gathers everything you need in one place — your scheduling, maintenance, international trip support tools and more — with rich features and no redundant data entry. The FOS Mobile app lets you access FOS tools and services from your iOS and Android™ devices.

**ARINCDirect flight planning**

Create and file electronic flight plans anywhere worldwide, using aircraft performance data and the latest atmospheric forecasts for the most precise fuel burns and time calculations. With our iPad® app, you’ll always have up-to-date weather information and flight plans at your fingertips.

Streamline every trip, start to finish

*World-class service and support anywhere, anytime, every time*

From the moment you decide on a destination, Rockwell Collins is there with the support that helps make any trip a pleasure to take. Our services and tools are designed to smooth every detail of every flight.
Building trust every day.

Rockwell Collins delivers innovative aviation and high-integrity solutions that transform commercial and government customers’ futures worldwide. Backed by a global network of service and support, we are deeply committed to putting our solutions to work for you, whenever and wherever you need us. In this way, working together, we build trust. Every day.
