

Rockwell Collins Calibration Services

For improved reliability and performance, let our technical expertise work for you.

Rockwell Collins Calibration Services provides both fixed- based and mobile on-site calibration and repair support for a wide range of third-party test equipment, Air Data services, and physical/dimensional measurement calibration services.

As a diversified provider to the avionics, telecommunication and space technology industries for over three decades, Rockwell Collins is dedicated to providing superior customer service to meet your needs.

MOBILE CALIBRATION SERVICES

The Rockwell Collins CALVAN fleet consists of trained professionals that deliver industry recognized Rockwell Collins customer service.

When selecting our mobile CALVAN calibration services, you experience the best level of quality and convenience. By allowing us to conduct non-intrusive calibration services within our mobile lab, you can continue to operate and serve your business.

KEY BENEFITS

- › Efficient and cost effective
- › Minimum equipment downtime
- › Reduced administration time
- › Minimized transportation costs
- › Elimination/reduction of shipping damage

KEY FEATURES

- › On-site self contained laboratory
- › Nation-wide coverage
- › Annual visits to your area
- › Flexible non-intrusive work schedules and hours
- › Calibration traceable to NIST standards

ADDITIONAL COST-SAVING SOLUTIONS

To further customize your scheduled CALVAN visit and for additional cost savings call and ask about:

- Single-site and multi-site service agreements

By investing in a mobile CALVAN service agreement, customers requiring other fixed-based service will receive an additional benefit of:

- No extra calibration costs after repair
- No EXPEDITE fee

FIXED-BASE CALIBRATION SERVICES

In addition to our mobile services, we offer test equipment calibration and repair solutions in our Rockwell Collins Wichita, Kansas service center.

Our calibration service spans a widely diversified set of equipment and has supported the avionics industry for three decades. Rockwell Collins has built a reputation of providing our customers with superior calibration and repair support.

Key Benefits

- Quick equipment turn-around
- Avionics simulation for difficult problems
- Air Data laboratory
- One-stop service provider for multi-vender calibration
- Calibration and avionics repair service provider

All calibrations are traceable to the National Institute of Standards and Technology (NIST).

AIR DATA

Rockwell Collins Mobile Air Data services provide superior comprehensive Air Data test equipment repair and calibration using state of the art standards. Our fixed-base or mobile services and Rockwell Collins customer support can customize your pressure/vacuum calibration services satisfying your business requirements.

THE SOLUTION

Our experienced technicians have extensive knowledge with a multitude of national third party equipment types to ensure that we have the right solution for your needs.

Today, investing in Calibration Services to support your business equipment assets, whether fixed-base or mobile CALVAN services, is good business. To restore your units to optimal operating condition and calibration requirements, contact us.

Building trust every day.

Rockwell Collins delivers smart communication and aviation electronic solutions to customers worldwide. Backed by a global network of service and support, we stand committed to putting technology and practical innovation to work for you whenever and wherever you need us. In this way, working together, we build trust. Every day.
