Ms. Nhien Hoang, Aerospace Engineer EE

Subject: Request for New Type 2 Letter of Acceptance for Rockwell Collins Aeronautical  
Data Process for Airport/Runway Database, Rockwell Collins Package #40631

- Reference:
- (A) Rockwell Collins Letter dated 28 May 2011, Request for New Type 2 Letter of Acceptance for Rockwell Collins Aeronautical Data Process
  - (B) FAA Approval Letter, dated 8 June 2011, Type 2 FAA Letter of Acceptance (LOA) for SVM-6110 (Airport Runway), for Ref. (A)
  - (C) Rockwell Collins Letter dated 18 December 2013, Request for New Type 2 Letter of Acceptance for Rockwell Collins Aeronautical Data Process, with FAA Acknowledgement Stamp dated 9 June 2014
  - (D) Rockwell Collins Letter dated 29 April 2014, Request for New Type 2 Letter of Acceptance for Rockwell Collins Aeronautical Data Process for Airport/Runway Database, with FAA Acknowledgement Stamp dated 9 June 2014
  - (E) Rockwell Collins Letter dated 2 December 2014, Request for New Type 2 Letter of Acceptance for Rockwell Collins Aeronautical Data Process for Airport/Runway Database, with FAA Acknowledgement Stamp dated 27 April 2015
  - (F) Minor Complex Hardware Change Letter for the Rockwell Collins AFD-3710 Adaptive Flight Display (-001 status) dated 4 April 2018, with FAA Acknowledgement Stamp dated 27 April 2018

Dear Ms. Combs and Ms. Hoang:

Rockwell Collins currently holds a Type 2 Letter of Acceptance (LOA) that acknowledges compliance with Advisory Circular AC 20-153A regarding aeronautical data processing, Refs. (A) thru (E). The acceptance of this LOA is based upon compatibility with specific equipment. Rockwell Collins maintains a list that identifies equipment for which compatibility has been established. We are requesting your concurrence to use an updated list of equipment.

The *List of Applicable Part Numbers – Airport/Runway Database*, dated 28 October 2014 has been previously submitted to your office for approval, Ref. (E). The *List of Applicable Part Numbers – Airport/Runway Database*, dated 8 April 2019 is being submitted to your office with this package.

The updated list recognizes (1) new version of the AFD-3710 Adaptive Flight Display which has been accepted by your office, Ref. (F). A complete summary of the additions are identified in the table below.

Database	SCID P/N	AFD-3710	ATFA P/N (Customer Reference)	Jeppesen	Lufthansa
Airport/Runway	946-8187-001	822-3343-001	810-0391-001	X	N/A

There have been no changes to the database itself or the methodology used to create it. Only the list that identifies compatible equipment is being updated to reflect appropriate part numbers and equipment types. RCI continues to produce database types previously granted Type 2 acceptance.

Please note your concurrence of this request for approval of *List of Applicable Part Numbers – Airport/Runway Database*, dated 8 April 2019 with your FAA Acknowledgement Stamp. If you have any questions or require additional information, please let me know.

Sincerely,

Sean M. Timp
