## Exclusions Report For the J61 Navigation Database

### **Forward to the Chief Pilot**

**IMPORTANT NOTICE:** *This report is for supplemental use only and is not intended to be used in lieu of preflighting the navigation database in the FMS. Procedures removed by government sources and data suppliers will not be included in this report. It is the operator's responsibility to determine that the database content meets his intended purpose. This can, ultimately, only be accomplished with the highest level of assurance by reviewing the flight-planned route in the FMS prior to flight.*

**SUBJECT: Records/procedures removed by Collins Aerospace during the processing of the FMS navigation database for the dates listed below.**

**FOR NAVIGATION DATABASES EFFECTIVE: CYCLE 1905 EFF: 25 Apr 19 to 22 May 19 and 1906 EFF: 23 May 19 to 19 Jun 19**

**This information only applies to operators using the Collins Aerospace J61 navigation database.**

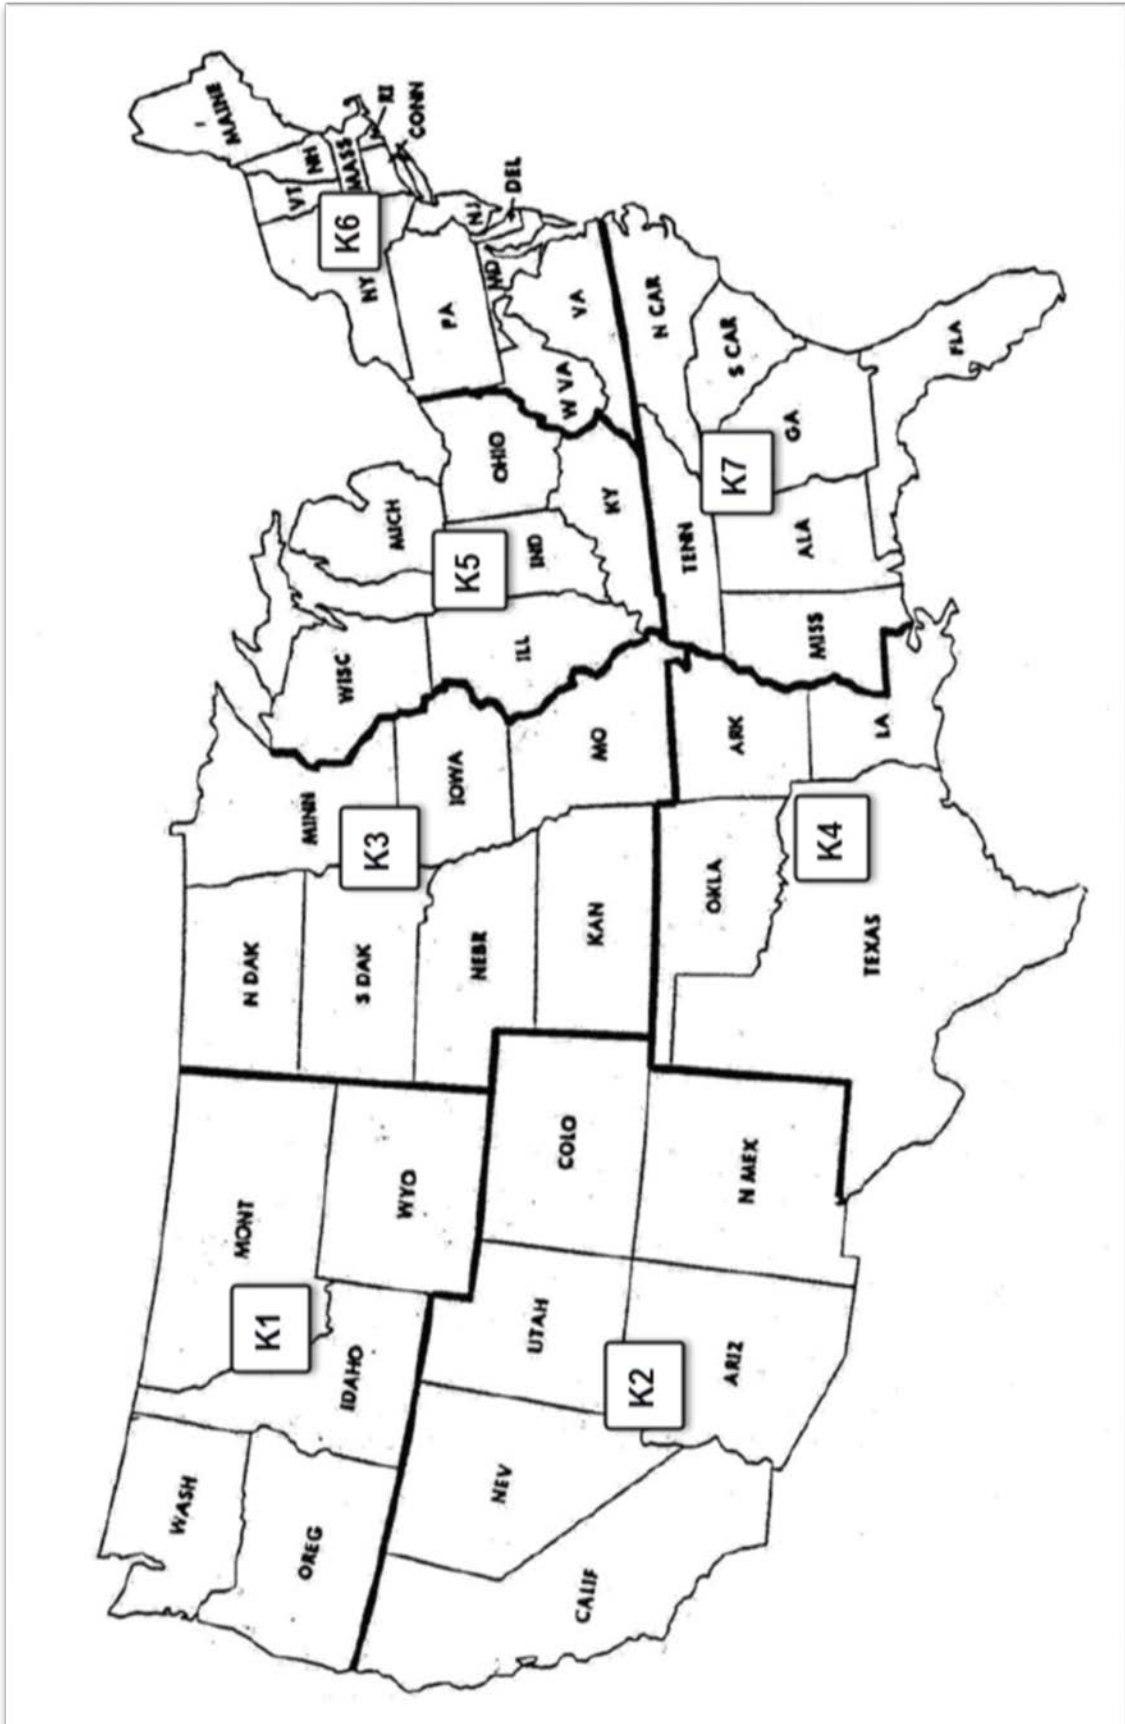

NOTE: This document does not list procedures that were deleted by Jeppesen or the original data source.
