Exquisitely refine your cabin experience.

Venue™
CABIN MANAGEMENT SYSTEM
Upgrade your cabin experience to the next level.

No compromises.
Your cabin is the most personal connection to your aircraft. Let’s work together in customizing it reflecting your business and personal needs.

The Venue™ cabin management system from Rockwell Collins surrounds you with capabilities for an engaging in-flight experience as personal as the rest of your cabin. With Venue, you can connect with our entertainment sources – Stage™ content service, Blu-ray™, Airshow® moving maps, HDMI inputs for carry-on content and audio-video on demand (AVOD). Spend your time where compromise is never a consideration.

Learn what over 1,000 aircraft owners who fly with Venue already know – there’s no better way to maximize every moment of flight.
DISTINCTIVE FEATURES

- Intuitive control
- Rich media content
- Forward-focused design
- Global support
- Cabin management
Intuitive control.

With Airshow® Mobile and Venue Cabin Remote apps for iOS and Android™ devices, you can command your system from anywhere in your cabin.

Pure freedom.

Wireless and wired points of control let you enjoy exactly the cabin experience you want — from selecting entertainment content to controlling your cabin environment.

Whether you connect with the system through your personal device or through the inviting seat-side or galley touchscreen displays, the interface design is intentionally minimalist and highly intuitive. Easy-to-understand iconography and easy-to-read display menus give you an effortless sense of mastery.
Rich content at your fingertips.

Make every flight more enjoyable with a wide selection of entertainment, news, live sports, moving maps and more.

Stage™ content service
Familiar and inviting, Stage lets you bring your home infotainment with you on board, wherever you fly. Stay informed through Stage's business news, weather and sports feeds, along with destination and event information. Be entertained with our massive library of 400+ licensed Hollywood and international movies, 400+ TV shows, music collections and games.

Stage manages it all with ease – including your personal library of on-board content.

Airshow moving maps
Explore destinations around the virtual globe and follow your flight in real time with Airshow moving maps. Select from a variety of engaging flight information displays and map views.

You can enjoy all the captivating features of Airshow on your iOS or Android devices with our Airshow application. For example, the panorama feature animates your display screen with sweeping, real-time views of the world outside your aircraft – as if your cabin walls and floor were invisible.

AVOD
With Venue's AVOD solution, you can watch your own library of unencrypted movies and videos on the cabin’s bulkhead monitor, at your seat or even streamed wirelessly to your DNLA-certified tablet. Other passengers can also watch and enjoy your video library, at their leisure, on their personal display, or with a DNLA app on their own smartphone or tablet.

Tailwind® TV
Our Tailwind family of airborne satellite TV systems is capable of receiving high-definition broadcast channels, where available, providing the most comprehensive and compelling content available in the air. Watch sports, news and other live content. You won’t miss a thing while you’re traveling in the contiguous United States or between multiple regions worldwide, such as Europe and the Middle East.

Blu-ray™
Venue delivers your high-definition content, from Blu-ray movies to USB-stored media, with crystal-clear picture quality.
New, highly desirable technologies arrive on the consumer scene every year. Fortunately, your Venue system will already be poised to take advantage of many of these technologies. That’s because Venue’s essential design includes capabilities that can deliver the performance you expect today while flexing to the demands of tomorrow’s innovations. Venue is designed to support exciting new consumer technologies as they emerge.

Venue Cabin Remote app for iOS and Android devices

Forward-focused design.

Venue Cabin Remote app
Provides complete cabin control management from your iOS and Android devices. The app dynamically recognizes the configuration of your cabin and enables you to control lighting, shades, temperature and entertainment, including your Airshow moving map.

Touchscreen switch panel, shown with brushed aluminum bezel, is your comprehensive cabin-control center

Personal tablet arm charges and holds your devices

10.6-inch HD personal touchscreen for environmental control and interaction with wired media and Airshow moving maps

42-inch bulkhead display

24-inch bulkhead display

Airshow Mobile app for iOS and Android devices

42-inch bulkhead display
Our tailored approach enables you to be involved in the creation of your entire solution, producing a bespoke experience that will remain relevant for the life of your aircraft.

Our systems give you the feel of a one-off system, with the reliability that comes with product line investment and backing. You won’t have to fear being stranded in a remote part of the world, waiting for a “reprint” of your custom-built product.

We have spares pools, field support and Rockwell Collins authorized dealerships conveniently located around the world. For you, that means no flight delays. No missed meetings. No unhappy passengers. No compromises.

The tailoring we provide you as a Rockwell Collins customer extends to our award-winning global support. You can count on our ongoing, customized consultation to ensure our products and services meet your unique needs. And, you can have perfect confidence that Rockwell Collins will be around to serve you for generations to come.

Whether you’re taking initial delivery or upgrading your aircraft, we’ll be there with you – worldwide – to expertly handle every detail.
Building trust every day.

Rockwell Collins delivers innovative aviation and high-integrity solutions that transform commercial and government customers’ futures worldwide. Backed by a global network of service and support, we are deeply committed to putting our solutions to work for you, whenever and wherever you need us. In this way, working together, we build trust. Every day.
